

BURNT-TO-SHAPE PLATES

AM/NS India Steel burnt-to-shape offers tailor-made cutting solutions with its 30,000 TPA oxy / plasma cutting facility and JIT (Just-In-Time) supplies. They simplify procurement for the end-user and help reduce costs through efficient nesting and integrated logistics support.

BENEFITS

- **Cut edge finish:** Plasma – RA 500, Oxy – RA 1000
- Capable of cutting bevel edge
- Capable of cutting any shape
- Auto Datum Setting
- Drawing input possible in many software formats like Tekla, Columbus, StruCAD etc

APPLICATIONS

- Yellow goods
- Pre-engineered buildings
- Boilers and heat exchangers
- General engineering
- Wind energy

DIMENSIONS

- **Thickness:** 40 mm (Plasma), 200 mm (Oxy)
- **Width:** Up to 5,000 mm
- **Length:** 18,000 mm
- Offers an accuracy of 0.5 mm over 18,000 mm length.
